

The materials in this toolkit provide samples of the many items available on the CSA 2010 website to support outreach to FMCSA staff and State Partners about CSA 2010.

## FMCSA/State Partner Suite of Materials Available on the Web

Review and share this one-page flyer which describes the range of materials available for FMCSA and State Partner staff on the website. Go to <http://csa2010.fmcsa.dot.gov/YourRole/fmcsa.aspx> for additional materials.

**Helpful Hint:** Add the CSA 2010 website to your browser favorites and encourage FMCSA staff and State Partners to connect too. Subscribe to the RSS feed or email listserv: <http://csa2010.fmcsa.dot.gov>

## The CSA 2010 Dispatch (Quarterly Newsletter)

Read and distribute this quarterly newsletter, which covers important CSA 2010 topics.

**Helpful Hint:** Download the most recent edition: <http://csa2010.fmcsa.dot.gov/Outreach.aspx>

## Safety Measurement System (SMS) Factsheet

Bring copies of this factsheet to FMCSA, State Partner, and industry meetings, presentations, and conferences to explain how the new SMS will quantify a carrier's on-road safety performance in the seven Behavior Analysis Safety Improvement Categories (BASICS).

**Helpful Hint:** Learn more about the BASICS at: <http://csa2010.fmcsa.dot.gov/about/basics> and search the FAQ page for answers to specific questions at: <http://csa2010.fmcsa.dot.gov/FAQs.aspx>

## Safety Investigator Factsheet

Provide this factsheet to Safety Investigators to help them understand how their jobs will change under CSA 2010, enabling them to be even more effective in addressing carriers with safety problems.

**Helpful Hint:** Encourage FMCSA staff and State Partners to log in to the private side of the website for additional information and resources such as video clips and recorded training webinars: <http://csa2010.fmcsa.dot.gov/login.aspx>

## Roadside Inspector Factsheet

Provide this factsheet to roadside inspectors to help them understand the increased impact of their work under CSA 2010 given that *all* roadside inspection results will count in compiling a carrier's safety profile.

**Helpful Hint:** For detailed information about how roadside inspection violations are used to compile SMS results, download the SMS methodology document at: <http://csa2010.fmcsa.dot.gov/Outreach.aspx>

## State Partner FAQs

Communicate now with State Partners! Use these FAQs to prepare them for changes under CSA 2010.

**Helpful Hint:** Look at the CVSA Guardian articles and the September 2009 CVSA briefing on the Outreach and Media webpage for more information geared to State Partners: <http://csa2010.fmcsa.dot.gov/Outreach.aspx>

*New materials are added regularly to the toolkits on the website, so stay connected!*
